NOTICE

Re: Change in Bus / Commercial Parking along City Streets

To whom it may concern:

In April, the Central City Council approved Ordinance 16-01 addressing various sections of the traffic regulations (Sec. 8-5-60), including specifically the restrictions placed on buses and commercial parking (load and unloading) along City streets in an effort to protect public health, welfare, safety and as well as to ensure a smooth and orderly transportation network within the City.

As a result of this change the following is permitted:

- Bus shuttles and drop off/ pick-up of passengers are limited to the three designated "bus stops" in the City. *[Labeled as stop 11, 12 & 13 on the map]*
- Commercial Parking for the purpose of loading and unloading of deliveries are limited to the 100 block of Gregory Street. *[See map]*

It is important to note that those areas designated for bus shuttles are not to be used as loading zones. Details on the locations of these stops and the loading zone can be found on the attached map. Parking in any other location along any public streets is not permitted for commercial vehicles (typically delivery trucks) and buses. All areas along the street will be well marked by signage regarding the areas permitted and prohibited for use.

Enforcement of these new requirements will start by the City during the first full week in June, so please forward this information to those who may be impacted by this change. If you have additional questions, please feel free to contact the City for more information.

Sincerely,

Ray W. Rears

Community Development Director & Historic Preservation Officer
